## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) submitted on 09/17/03. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 15 rejected under 35 U.S.C. 102(b) as being anticipated by Nirmalan et al. (U.S. Patent No. 6,422,743).

With respect to claim 1, Nirmalan et al. disclose a method for determining heat transfer performance of an internally cooled structure that including data relating to respective surface conditions at a plurality of different surface locations of the turbine component (see e.g. col. 2, lines 18-20); and calculating the total profile efficiency loss for the turbine component based on the data relating to the respective surface conditions at the different surface locations (see e.g. col. 5, lines 39-67).

Claim 15 is apparatus claim corresponding to method claim 1. Therefore, claim 1 is rejected for the same rationales set forth for claim 1.

4. Claims 2-14 and 16-28 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
